objective

Looking to utilise education and skills towards a challenging position in the financial sector, working for a reputable company that offers exciting opportunities for career development.

qualities

Natural aptitude for working with numbers and abstract problems

High achiever with a drive to succeed

Good critical thinking and an analytical mindset

Confident delivering work presentations

Resourceful and systematic worker

interests

I enjoy reading and keeping up to date with technology, science and current affairs. I am a keen chess player, often participating in friendly matches and competing in online tournaments.

Dedicated football fan, regular jogger and strong squash player.

profile

An ambitious, highly motivated and articulate graduate with excellent communication and time management skills. Experienced with working under pressure and is able to work as part of a team or individually to deliver a high standard of service. Approachable, well presented and easily establishes good working relationships with a diverse range of people. Possesses a proven ability to generate innovative ideas and solutions to problems.

education

- 2009–2013 **Masters in Physics - 2.1** Royal Holloway, The University of London
Integrated masters degree with modules in: Statistical Mechanics, Computing and Statistical Data Analysis, Particle Physics, Advanced Cosmology and Physics at the Nanoscale.
- 2005–2009 **A-Level and GCSE** Christ's College Finchley
A-Level: Mathematics, Physics and Economics
GCSE: Mathematics, Biology, Chemistry, Physics, History, Geography, French, I.T., English Language and English Literature

experience

- 2009 **Clintons Solicitors** London
Summer Internship
Intense 2 week period of work that took me from the library to the courtroom.
 - Assisted on pro bono cases
 - Completed several case reviews
 - Initially processing large amounts of case information
 - Often referencing, for example, acts of precedent from historical cases using the extensive law library
 - Finally producing a concise document summarising the matter
- 2008 **HypoVereinsbank, UniCredit Bank AG** London
Work Shadowing
Overview of the corporate banking environment; I learned the use of banking services in the handling of large loans and investments, how trades are settled and in controlling how a companies budget is managed.
- 2008 **Pittalis Gilchrist Accountants** London
Work Experience
Worked on the accounts for several clients, which developed my maths and statistics skills and taught me the importance of organisation for large data sets.

computer skills

- Basic:** C++, Java, Adobe Photoshop
Intermediate: MS Office Suite, Wolfram Mathematica, LaTeX
Advanced: Computer Hardware and Support for Windows, Linux and Mac
